

Dear CoCareSociety partners and friends,

We hope that our third CoCareSociety Newsletter finds you sound and well. If you enjoy it, feel free to forward or recommend it further. Sharing is caring!

Upcoming activities:

- **17.09.2024; at 3.00–4.30 pm online** | Event as part of the Climate adaptation week: On a joint mission: from national to European – because climate change knows no borders! (*Auf gemeinsamer Mission: von national zu europäisch – weil der Klimawandel keine Grenzen kennt!*) (in German). Register here: [Auf gemeinsamer Mission: von national zu europäisch \(ptj.de\)](https://www.ptj.de)
- 09.10.–10.10.2024 | Forum Citizen Science 2024, Hamburg
- 12.11.–15.11.2024 | 17th European Public Health Conference 2024, Lisbon, Portugal
- 26.11.2024 | Experience research: Climate and Health in Transition, an event organized by VHS Geesthacht and Helmholtz-Zentrum hereon (in German). Register here: [Forschung erleben \(hereon.de\)](https://www.hereon.de)

Recent Events:

- On September 1st we would like to welcome our new colleague Eva Künkler. She is the assistant to our junior research group lead and will co-develop the citizen-science platform. She did her bachelor's degree in history and ethnology and her master's degree in history. Before joining our team, she worked at the University of Hannover as a research associate on German colonial history.
- 04.07.–05.09.2024 | Chapel of the Future: As part of the 100 years celebration for the city of Geesthacht, the Helmholtz Center Hereon is presenting a selection of research currently being researched at Hereon in the chapel of the "Alter Friedhof". These includes the citizen science project CoCareSociety.
- 08.07.–12.07.2024 | Summer school in Utrecht: Keriin took part in the "Summer School in Implementation Science in Global Health" in the city of Utrecht. She learned new approaches and frameworks for implementing study results in our society, bridging the gap between research and real-world application.
- 18.06.–20.06.2024 | Summerschool in London: Clemens attended the course "Statistical Analysis with Missing Data Using Multiple Imputation" taught in London by statisticians from LSHTM, and part of the School's Centre for Data and Statistical Science for Health. The course was about how the method of multiple

imputation can be used to deal with missing data in statistical analyses and to understand the assumptions under which it is valid.

- 10.06.-15.06.2024 | The Sustainability Research and Innovation Congress (SRI) in Helsinki, Finland: Keriin presented on behalf of our CoCareSociety Project at the Interactive Roundtables "Lifecourse and sustainable development needs for health amidst global environmental change" with other experts.

In addition to our plenty plans for the upcoming months, we are working on our CoCareLabs as part of the Citizen Science format, planning our trip to our partner in Taiwan and continuing to prepare further publications.

As always, please let us know if you have any questions or suggestions. Thank you and take care!

Best regards from Hamburg,

Dr. Jo-Ting Huang-Lachmann & Team
